

Extra Height Window Wells

Adding strength where you need it

New automation, means stronger Extra Height Window Well design.

SPC's Extra Height window wells feature the added strength of 3 roll formed beads to significantly increase the window well strength. Secure spot welding for a stronger, solid and permanent product. The additional third, dirt-side bead significantly improves strength, making SPC Casement Style wells the strongest on the market.

Features

-  • 3 Roll formed beads, provides increased strength where it's needed most.
-  • Spot welded assembly for permanent corrosion free strength.
- Overlap steel reinforcement on 72" and taller window wells.
- No assembly, single piece installation
